### *Funeral Package 1 – A Single Pure White Dove Release*

A single white dove is released in respectful memory of a loved one. During this quiet moment of reflection, this single dove being released and soaring into the sky symbolises the lifting of the soul and the beginning of their journey into the heavens above. The release of a dove from a hand held decorative basket/cage or by hand. You also have the choice as to who releases the doves; this can be done either by one of our handlers, a family member or a loved one. Our handlers will be ready to assist with holding and releasing the doves.

### *Funeral Package 2 – Pair of White Doves*

This is the same as Package 1 (above), except that 2 doves are released. The pairing of 2 doves is symbolic of the joining of 2 souls, and is a beautiful way to signify the departure of a second loved one (such as joining an already departed soul).

### *Funeral Package 3 – Holy Trinity*

3 white doves are released from a 'basket' in recognition of The Father, The Son and The Holy Ghost. Some families may wish to release a single dove followed by the Holy Trinity.

### *Funeral Package 4 – One Spirit Dove followed by Flock of 12 Doves*

One spirited dove is released by a family member from a basket/cage. This dove is then followed by a 12 other pure white doves. When in flight this represents angels guiding the spirit dove to heaven.
